

Red Rock Creek Livestock BMP Implementation, II (Idaho CD)

Program	Riparian Improvements
Lead Implementer	Idaho County Conservation District
Funders	Idaho Department of Environmental Quality
Other Organizations	Idaho Soil and Water Conservation Commission, Private Party
Project Primary Contact	Stefanie Hays (stefanie.hays@id.nacdnet.net)
Project Stage	Implementation
Duration	2021 - 2023

Natural Resource Projects & Practices > Riparian Improvements

Red Rock Creek is a 26,482 acre watershed, flowing into Cottonwood Creek at stream mile 7.0; which then flows into the South Fork of the Clearwater River. The project will focus on livestock BMP projects that will decrease pollutant loadings identified in the Cottonwood Creek TMDL.

No Key Photo provided

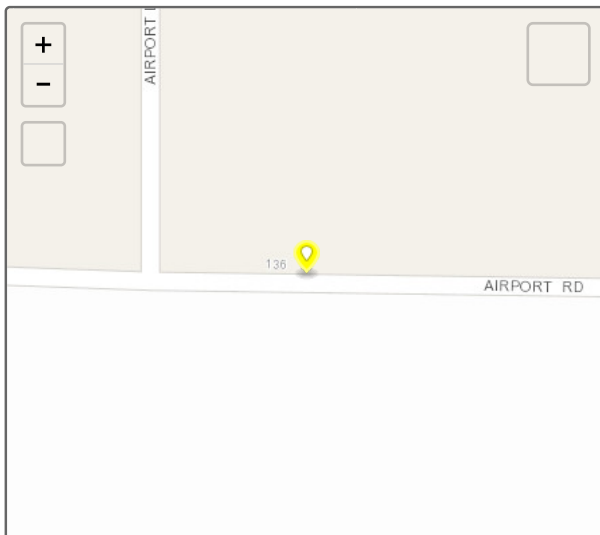

Key Accomplishments

- Landowner Site Visits: 10

Project Themes

- Agricultural Lands
- Healthy Watersheds
- Water

Location

Expenditures

No expenditures provided

Photos

No additional photos provided

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
